Introduction to Academic & Administrative Audit:

The main objective of an academic audit is to ascertain departments have put in place adequate and effective quality assurance mechanism in terms of strategies, procedures, their applicability, that ensures quality inputs and consequently quality outputs; their agility in ensuring continuous improvements along with review of available resources, their optimal utilization, additional resource requirements for providing quality education.

An increasingly prevalent trend in the higher education scenario in India in recent years is the willingness and drive by institutions and universities to introduce systems and practices in their work environment and establish high standards and benchmarks to guide their performance in keeping with the institution's vision and mission. More and more colleges of Institutions and universities in the country volunteer to subject their activities and performances to be critically reviewed and audited by national and international agencies. The contributions by national bodies such as the National Assessment and Accreditation Council (NAAC) in the educational sector, NABH in healthcare practices and NABL in laboratory practices have sensitized an increasing number of forward-looking establishments in the country to participate, learn and benefit from the expertise and readiness of these agencies to foster such participatory learning. Creation of internal quality assurance mechanisms that help to inculcate the gains made from such efforts in the day-to-day work ethics and organizational culture of the institution is an indispensable requirement in any quality assurance scheme. The Internal Quality Assurance Cell (IQAC) advocated by NAAC belongs to such recommendations. The Institution completed Second Cycle of accreditation by NAAC and received the certificate of accreditation on 1st May 2015, securing 'Grade B' with a Cumulative Grade Point Average of 2.70 out of 4.0 points.
